SpeedPlate™ Micro-Quad™

Rapid Compression Implant

Rotationally stable, robust fixation through a small 2.5cm incision

TREACE®

A Step Ahead.™

SpeedPlate™ Micro-Quad™

Rapid Compression Implant

- **Dynamic Compression With Rotational Stability**
  Delivers multiple points of fixation on each side of the joint
- **Small Incision**
  Fits through a 2.5cm incision enabling minimally invasive techniques
- **Anatomic Contour**
  Delivers fast, stable, anatomic compression

*Constructs shown are at surgeons' discretion.

Ordering Information

SK61 14mm SpeedPlate™ Micro-Quad™ Rapid Compression Implant

SK62 17mm SpeedPlate™ Micro-Quad™ Rapid Compression Implant

Before use of the system, the surgeon should refer to the appropriate instructions for use and surgical technique for complete warnings, precautions, indications, contraindications, and adverse events. Risks include, but are not limited to: infection, pain, discomfort from the presence of the implant, loosening of the implant, and loss of correction with nonunion or malunion. If any of these occur, additional treatments may be needed.
Additional information about risks, warnings, and instructions is available at Lapiplasty.com/surgeons/labeling.
